

# FARADAY'S FIVE

## Smart Tips for Balloon Use

1. “Please secure me with a weight.”
2. “Please don’t let me fly into the air — I don’t want to get trapped in a tree or on power lines.”
3. “I love kids. Young children with balloons should always be monitored.” Children under eight (8) years of age can choke or suffocate on uninflated or broken balloons.
4. “If I’m deflated or popped, properly discard me.”
5. “Despite the funny voice helium can give you, it should never be inhaled.”

**Don't let go: Inflate. Weight. Enjoy.**
